CITY OF JERSEY CITY

JERRAMIAH T. HEALY, MAYOR

September 27, 2010

Kimberley D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street NE
Washington, D.C. 20426

Re: Docket # PF10-17-000

Dear Ms. Bose:

On August 24, 2010, Spectra Energy filed "Interim Report #4 "indicating that the City of Jersey City "is not locked into opposing the project if there are sufficient benefits to the City." Spectra Energy misstates Jersey City's position. As explained in the attached letter to Mr. Gregory F Ebel, President and Chief Executive Officer of Spectra Energy, the City has profound doubts about the proposed project and will be filing at the earliest date allowed to become an Intervener.

Please include this clarification as well as my letter to Mr. Ebel as part of the pre filing docket.

Sincerely

Jerramiah T. Healy
Mayor

CITY OF JERSEY CITY

JERRAMIAH T. HEALY, MAYOR

September 27, 2010

Mr. Gregory F. Ebel
President and Chief Executive Officer
Spectra Energy
5400 Westheimer Court
Houston, TX 77056-5310

Dear Mr. Ebel,

I am writing to you to correct the record concerning my position and the position of my Administration on the proposed New Jersey-New York Expansion Project (Docket No. PF10-17-000).

In a document submitted to FERC by Ms. Julie E. Anderson entitled, "FERC Pre Filing Progress Monthly Progress Report #4 dated August 24th 2010," Ms. Anderson stated that on August 19, 2010 your representatives "Met with Mayor Healy and other Jersey City officials. They indicated they were not locked in to opposing the project if there are sufficient benefits to the City."

This is a gross mischaracterization of my position and the positions of those attending this meeting.

Let me briefly explain for your benefit my position on this proposed project.

This project raises many critical issues including:

- the public safety and security of our citizens
- the negative impact on future economic development of our city
- the potential negative impact on our aging infrastructure

I do not believe your company has in any way adequately addressed these issues and additionally, I do not believe you have examined all possible alternative routes.

To be clear, I do not support this project and any characterization otherwise is untrue. At the appropriate time, I will be filing as an Intervener with FERC and please know that I intend to

OFFICE OF THE MAYOR

participate fully and aggressively throughout the regulatory process on behalf of Jersey City and its residents.

I am requesting that you amend Progress Report #4 to accurately reflect both my position and those of the other City Officials in attendance.

Sincerely,

Jerramiah T. Healy
Mayor
